

 MURR Marine Electronics	Quality Policy	Code: MME-QMS-P02 Edition 1 Preparation Date: 06/03/2025 Revision Date: 06/03/2025 Page 1 of 1
---	-----------------------	--

At Murr Marine Electronics, we are committed to delivering high-quality marine electronic solutions and services that ensure the safety, efficiency, and reliability of maritime operations.

Our Mission

Our mission is to maintain our leadership in the marine electronics market of our country by consistently delivering high-quality service and reliable solutions. We strive to adapt and evolve in response to the needs of the industry while upholding our commitment to excellence. As we continue to grow, we aim to expand our reach further, providing our trusted services on a global scale.

Our Vision

Our vision is to sustain our status as the industry leader, continuously being at the forefront of technological advancements in marine electronics. We aim to set standards in innovation and service, ensuring that Murr Marine Electronics remains the first choice for maritime solutions worldwide.

Commitment to Quality

Our commitment to quality is guided by the following principles:

- We prioritize customer needs by delivering reliable and innovative marine electronic solutions, ensuring compliance with international standards;
- We foster a culture of innovation and excellence, continuously improving our processes, products, and services to maintain our leadership in the industry;
- We adhere to ISO 9001:2015 requirements and other applicable regulatory standards to ensure the highest levels of service;
- We empower our employees through training and development, recognizing that our people are key to achieving our quality objectives;

We are dedicated to provide the proper resources to maintain and improve our Quality Management System in alignment with ISO 9001:2015, ensuring that we consistently deliver excellence to our customers.

This policy is communicated to all employees and relevant stakeholders, and we commit to reviewing its effectiveness regularly.
